India Meetings Begin This Week in Delhi

The Green Electronics Council's Director of Stakeholder Engagement, Sarah O'Brien, will be in India April 4 through April 15 to meet with manufacturers, purchasers and other stakeholders in Delhi and Bangalore.

Sarah will be presenting to and meeting with industry members on Friday, April 11, during a half-day membership event of the Manufacturers Association for Information Technology. This meeting may be an interesting opportunity for your team to learn more and suggest optimal ways to roll-out EPEAT in India.

She will also be presenting at two Intel customer sessions, in Delhi and Bangalore, as well as conducting multiple individual meetings in both cities.

Sarah will be in Delhi April 4-7, traveling to Bangalore April 8-10, and be available again in Delhi April 11, 14 and 15.

If you are interested in having Sarah visit with your India teams or meet with key customers and suppliers to introduce them to EPEAT, please email her at sobrien@GreenElectronicsCouncil.org or call her at +1 802 233 1478 to make arrangements.

EPEAT Technical Training

GEC plans to provide EPEAT training in India to bring local Subscriber staff up to speed on Registry requirements and to enable local consultants to begin to train for [Qualified Verifier](#) status. If this training would be useful to your company, please [let us know](#) so we can consult to plan

appropriate content coverage and timing.
