### Criteria Training and Future Verification Rounds

EPEAT Conformity Assurance Manager Susan Herbert will soon host an interactive training webinar about specific criteria from the PCs and Displays standard. This webinar is designed to help EPEAT Participating Manufacturers improve their understanding of the criteria and to prepare for upcoming Verification Rounds.

Susan will present details about the following four criteria from the PCs and Displays standard:

- 4.3.2.2 (Optional) - Marking of plastics
- 4.4.2.1 (Required) - Upgradeable with common tools
- 4.4.2.2 (Optional) - Modular design
- 4.5.2.1 (Optional) - Renewable energy accessory available

The webinar will be held at three different times to accommodate Participating Manufacturers worldwide. The content will be the same in all three trainings, so interested parties need only attend one of the three sessions on Feb. 17 and 18.

More information, including the proper link to register for one of the available time slots, is available [at this page](#).

### Outcomes Report for TV-2014-01 Now Available

We have recently published the Outcomes Report for Verification Round TV-2014-01, in which 15 "Level 0" and "Level 1" investigations were completed.

The "Level 0" investigations involved a Qualified Verifier attempting to establish conformance based on publicly

available information, as applicable.

We encourage Participating Manufacturers to [review the Outcomes Report](#), especially the **Key Lessons** section on page 3 of the PDF, for important information.

You can view the entire Outcomes Report for Verification Round TV-2014-01 [at this link](#).
