Verification Round Plan PC-2015-01 - "Level 1" Investigations to Launch in Early March

The Verification Round Plan for PCs and Displays Round PC-2015-01 is now available and [can be found here](#). In this Round, all products and criteria will be randomly chosen, and 75 "Level 1" investigations are planned. The Round will begin in early March 2015.

[The EPEAT Online Learning Center](#) has pre-recorded training modules for every criterion in the 1680.1 standard. These modules are designed to de-mystify the standard's requirements and to illustrate the types of information needed during a Verification Round. EPEAT Participating manufacturers with questions about what information is needed to demonstrate conformance to a specific criterion may want to review these modules.

If you do not yet have access to the Training Center, please [contact Andrea Desimone](#) and she will help you get started.

EPEAT is also happy to provide participating manufacturers with individual training sessions on what is needed to show conformance for specific criteria. Please [contact Susan Herbert](#) to schedule an individual training session.

Outcomes Report for IE-2014-03 Now Available

Verification Round IE-2014-03, which occurred in 2014, included 24 "Level 2" and "Level 3" investigations with the

intention of assuring conformance for imaging equipment through laboratory evaluation. The Outcomes Report for this round, including detailed results, [can now be found here](#).

Please take a minute to review [the Outcomes Report](#), especially the key lessons section, for important information.
