Register for Conformity Assessment Training

From **November 2-5, 2015**, the Green Electronics Council will host an EPEAT Conformity Assessment Training in **Portland, Oregon, USA**. Attendees will learn about the EPEAT® system, and conformance to the IEEE 1680.1 Standard for Computers and Computer Displays, the 1680.2 Standard for Imaging Equipment and the 1680.3 Standard for Televisions. Training will cover all aspects from product declaration through verification.

Those who successfully complete the full 4-day training and pass the certificate exam will meet the training requirement to perform conformity assessment and verification investigations for an EPEAT-approved certification body.

Manufacturers who take this course will gain in-depth knowledge of the system operations, the environmental requirements of the standards, and how to achieve and demonstrate conformance. You will learn in detail the product declaration process; the product, service and corporate criteria; and the verification process.

[Register today](#) for this valuable training.

Outcomes Report Available for Verification Round PC-2015-01

The Outcomes Report for Verification Round PC-2015-01 is now available, and [can be downloaded here](#). This Verification Round investigated randomly chosen products

and criteria, with 74 Level 1 investigations completed. Of those investigations, 47% were for required criteria, and 53% were for optional criteria. The overall conformance rate for the Round was 63%.
