EPEAT Sales Data Reporting: Email Coming Soon

All EPEAT Participating Manufacturers are required to report their calendar year unit shipments ("sales") of EPEAT-registered products by April 1 of the following year. This means the deadline to report EPEAT sales data for the 2014 calendar year is April 1, 2015.

To avoid confidentiality issues, Participating Manufacturers should report their unit shipment data to the ITI trade association, which then aggregates the data and reports the totals to EPEAT. The overall data is used to understand EPEAT-registered products' presence in the market and to estimate the environmental benefits of the EPEAT system.

Within the next several days, each Manufacturer will receive spreadsheets for one or more product categories that identify the regions in which they had registered products in 2014. The email will come from [Julia Bulfin](#) of the Green Electronics Council. With these spreadsheets, Julia will also include detailed instructions for reporting.

The basic process is as follows: for every region in which you had actively registered products, you must report unit sales of all registered products. Only report unit sales that occurred after a product was registered. Do not report revenues, only unit shipments.

Between now and April 1, Julia will send regular reminders about sales reporting obligations to all Participating Manufacturers whose data has not yet been received. Apologies in advance for the repetitive notices, but it's easy to forget this task when you have much more on your

plates.

If you have significant problems meeting the April 1 deadline, please [contact Julia](#) to discuss possible adjustments to the timeline.

We appreciate you reporting your 2014 unit shipment figures promptly and fully, and we thank you for the effort involved.
