May 5 and 6: Television Criteria Training Webinar

EPEAT Conformity Assurance Manager Erin Gately will be holding three interactive training webinars about a number of specific criteria for the Televisions standard. We will hold three identical sessions at different times on May 5 and May 6 to accommodate attendees worldwide.

These training webinars are designed to help Participating Manufacturers improve their understanding of complex criteria and prepare for upcoming verification rounds. View the full schedule and the criteria to be covered [at this link](#).

EPEAT Face-to-Face Workshops: Choose City

The Green Electronics Council is hosting two one-day Manufacturer Charettes (workshops) to build on the work of the EPEAT Conformity Assurance Improvements Committee. These charettes are scheduled to take place May 14 and July 15. Manufacturers may attend either event but need not attend both. If you have not done so already, please [take this brief poll](#) to indicate the meeting location and date that is most convenient for you.
